**Research Triangle Park has 170 companies in 22.5 million sq feet of commercial space on 7,000 acres with 52,000 workers. The proposed "Science City" would have 20 million sq ft of commercial space on 900 acres with 60,000 workers plus 18,000 to 20,000 residents.**

Footnote: The Center for Biotechnology and Life Sciences, University of Rhode Island: "The 140,000 square-foot facility houses modern teaching laboratories, cutting edge research laboratories, high-tech facilities for DNA sequencing and analysis, faculty offices, a 100-seat classroom, and a two-story, 300-seat auditorium, all to meet the needs of URI's growing environmental biotechnology, life and health sciences programs."
